

Installation Instructions Fabric Replacement Top

Vehicle Application:
Jeep® Wrangler YJ 1988-1995
Part Number 51120

Installation Tips

Before you begin installing your new Fabric Replacement Top, please read all the instructions thoroughly.

For easier installation, the top should be installed at a temperature above 72° F. Below this temperature, the fabric may contract making it difficult to fit the vehicle.

⚠ WARNING Do not rely in any way on the components of this product to protect against injury or death in the event of an accident. Never operate the vehicle in excess of manufacturer's specifications.

Read and follow, precisely, all installation instructions provided when installing this product. Failure to do so may result in a poor fit and could place occupants of the vehicle in a potentially dangerous situation.

⚠ CAUTION Safety glasses should be worn at all times when installing this product.

WEAR SEAT BELTS AT ALL TIMES

Installation Instructions Fabric Replacement Top

Vehicle Application:
Jeep® Wrangler YJ 1988-1995
Part Number 51120

Sugerencias de Instalación

Antes de empezar a instalar esta unidad, lea atentamente todas las instrucciones.

Para un buen ajuste:

Para facilitar la instalación, el producto debe instalarse a temperaturas superiores a 72 °F (22 °C).

Por debajo de esta temperatura, la tela puede encogerse una pulgada o más, lo que dificultaría su ajuste al vehículo.

Es normal que la tela se contraiga o arrugue cuando está guardada en la caja de empaque. A los pocos días después de la instalación, la tela se relajará y las arrugas desaparecerán.

ADVERTENCIA

Este producto se diseñó principalmente para mejorar la apariencia del vehículo y proteger a los ocupantes de las condiciones climáticas comunes. De ninguna manera piense que los componentes de este producto pueden servir como medio de contención para los ocupantes del vehículo o que pueden protegerlos contra lesiones o la muerte en caso de accidente. Este producto no protegerá a los ocupantes contra caídas de objetos. Nunca conduzca este vehículo fuera de las especificaciones del fabricante.

USE LOS CINTURONES DE SEGURIDAD EN TODO MOMENTO

Lea y siga con precisión todas las instrucciones de instalación que se proporcionan para instalar este producto. Si no lo hace, podría producirse un mal ajuste que colocaría a los ocupantes del vehículo en una situación potencialmente peligrosa.

PRECAUCIÓN

Debe usar gafas protectoras en todo momento durante la instalación de este producto.

Conseils pour l'installation

Lire toutes les instructions au complet avant de commencer l'installation de cet assemblage.

Pour un ajustement sans problème :

Afin de faciliter l'installation, ce produit doit être installé à des températures au-dessus de 72 °F (22 °C).

Sous cette température, le tissu peut rétrécir d'un pouce (2,5 cm) ou plus, ce qui rendra l'ajustement sur le véhicule difficile.

Il est normal que le tissu rétrécisse et plisse pendant qu'il est dans la boîte d'expédition. En quelques jours après l'installation, le tissu se détendra et les plis disparaîtront.

AVERTISSEMENT

Ce produit est conçu principalement pour améliorer l'apparence du véhicule et pour protéger les occupants des conditions météorologiques usuelles. Ne jamais se fier aux composants de ce produit pour se protéger de blessures ou de la mort en cas d'accident. Ce produit ne protégera pas les occupants des chutes d'objets. Ne jamais utiliser le véhicule au-delà des caractéristiques techniques indiquées par le fabricant.

PORTER UNE CEINTURE DE SÉCURITÉ EN TOUT TEMPS

Lire et suivre, très fidèlement, toutes les instructions d'installation fournies lors de l'installation de ce produit. Ne pas suivre cette consigne peut causer une installation inadéquate et mettre les occupants du véhicule dans une situation potentiellement dangereuse.

MISE EN GARDE

Des lunettes de sécurité doivent être portées en tout temps lors de l'installation de ce produit.

Parts Kit

Top Fabric Assembly	Qty - 1
Quarter Window, Right	Qty - 1
Quarter Window, Left	Qty - 1
Rear Curtain (Window)	Qty - 1
Door Assembly, Rt.	Qty - 1
Door Assembly, Lt.	Qty - 1

Note: Before beginning this installation, remove the old top and make sure all hardware is in place and that the Drip Rails are locked into the Windshield Frame.

Step Two

Insert front of top into windshield retainer.

Step One

Locate the top and orient it on the vehicle. Snap it to the bows.

Step Three

Push front support bow all the way forward.

Step Four

Insert rear corners of top into rear corner retainer.

Step Five

Pull the bottom of the rear support bow back until it snaps into the notch in the side rail.

Step Six

Push the spreader bars up until they snap into place.

Step Seven

Start the zippers 2-3 inches on the top and rear of the side curtain.

Step Eight

Pop the plastic strip on the front of the side curtain into the retainer channel on the front support bow.

Plastic Strip into Retainer Channel

View of Side Curtain from Front

Step Nine

Slip the plastic strip on the bottom of the side curtain into the side retainer. Close the top and rear zippers on the side curtain.

Step Ten

Open the tailgate. Slide the rear curtain retainer onto the bottom of the rear curtain. Close the rear curtain zippers. Push the rear curtain retainer into the top of the tailgate retainer. Slip the plastic on the bottom of the corners under the bottom of the tailgate retainer.

Step Eleven

Fasten snaps on top, above doors, to studs on vehicle. Studs will slide to match location of snaps on top.

Step Twelve

Unfasten the plastic retainer at the bottom of the fabric door and remove it from the vehicle. Use a razor knife to cut the stitches on the old door covers and remove them from the door frames.

Step Thirteen

Separate the hook and loop fasteners on the door covers and slide the new cover onto the frame, starting at the top. Work from corner to corner, wrapping the fabric around the frame and fastening the hook to the loop as you work around the door.

Step Fourteen

Reinstall the upper doors. Insert the pins into the grommets in the lower door.

Step Fifteen

Fasten the snap at front of upper door. Slip plastic strip on the bottom of the soft door into the retainer on the steel door.

Care and Maintenance of your Bestop Product

Your Bestop product is made of the finest materials available. To keep it looking new and for the maximum possible wear, it will need periodic cleaning and maintenance.

Fabric: The fabric should be washed often using soap, warm water and a soft bristle brush. Rinse with clear water to remove all traces of soap. Bestop recommends using Bestop Cleaner (part no. 11201-00) and Bestop Protectant (part no. 11202-00) for Vinyl fabric and Bestop Twill Protectant (part no. 11207-00) for Twill fabric. Bestop Cleaner and Bestop protectant are specially formulated to provide a total cleaning and protection system. Bestop Cleaner safely removes the toughest stains, will not harm vehicle finishes, is biodegradable and environmentally friendly. Bestop Protectant protects against UV-fading, cracking and hardening, and repels dust, grease, dirt and mildew.

Windows: Keep windows clean to avoid scratching. DO NOT use a brush on the windows! Wash with a water-soaked cloth or sponge and a mild dishwashing detergent. Bestop recommends Bestop Vinyl Window Cleaner (part no. 11203-00), which safely cleans and protects vinyl windows and helps prevent UV damage. NEVER WIPE THE WINDOWS WHEN THEY ARE DRY. Be careful when cleaning snow or frost from the vinyl windows since they are easily scratched and may crack at low temperatures. DO NOT roll the sides or rear window in cold weather. The windows become stiff and will crack. Cracks caused by misuse in cold temperatures are not covered under warranty.

Water: Seeping through at the seams may be stopped by applying 3-M Scotchgard® on the inside of the seams.

Snaps: Keep snaps cleaned and lubricated with silicone to help prevent snaps from sticking to the studs. If a snap does become stuck to a stud, use a screwdriver and GENTLY pry apart to prevent permanent damage to the snap or the top fabric.

Zippers: Keeping zippers cleaned and lubricated with Bestop's Zipper Cleaner (part no. 11206-00) will help prevent damage and keep the zippers in smooth working condition. If a zipper opens behind the slider, the slider may have been spread apart. This problem can usually be repaired by using an ordinary pair of pliers to bring the sides back into parallel. Return slider to the end of the zipper in the normal Open position. Squeeze lightly at first and test the zipper. If the zipper continues to remain open squeeze more firmly with the pliers and try the zipper again. Repeat this procedure until the zipper operates correctly.
